

COTSWOLD

InOut Furniture

Cotswold Furniture was founded in 1981 and has been a leader in the furniture industry ever since. Our products, combined with superior knowledge of the industry and a focus on excellent customer service have made us what we are today. Cotswold Furniture services Australia with high quality, durable and unique furniture. In addition to our retail customers we have a long and productive relationship with our commercial clients.

VINCENT SHEPPARD

OUTDOOR COLLECTION

At Vincent Sheppard, they're convinced that shared moments outdoors are the ones that will last a lifetime. Be it playing with your kids in the garden, a relaxing afternoon on a cosy terrace, or some lovely days in a beautiful hotel, the hours and days spent outside will be amongst your most precious moments. That is why the Belgian company created an outdoor collection as well to accommodate those moments of happiness. With great seating comfort, high quality, and durability at the basis of each and every one of their designs, Vincent Sheppard tries to create beautiful and unique pieces of furniture that will make your outdoor space just that little bit better. Vincent Sheppard offers an all-weather collection in synthetic materials that can be left outside all year long, as well as a range of outdoor Lloyd Loom products, that allow you to bring the distinct look of Lloyd Loom furniture outside.

COTSWOLD

TEAK

Cotswold has been the leading teak supplier in Australia for almost three decades.

A grade teak (*Tectona Grandis*), with its exceptional qualities of aesthetic warmth, durability and stability, has long been the natural choice for leisure furniture. This most valuable, deciduous timber has been in use in the building and boating industries for hundreds of years. Naturally oily, it resists marine borers and moisture. Preparation is all important. Having selected the components for a model, the timber is cut and then kiln dried with great care. High grade, well maintained machinery, in conjunction with a very skilled workforce, ensure that products are made to the highest of standards.

Nothing is rushed and nothing is wasted, such is the value of this raw material.

TEAK PRODUCT CARE

Teak is a deciduous hardwood tree and contrary to popular belief, comes from the highlands and not from tropical rainforests. No other wood shares teak's exceptional strength and durability. Its unique texture and leathery smell are due to its high oil content. These characteristics, combined with the wood's high density, prevent warping and rot, allowing the furniture to stay outdoors in all conditions, without maintenance or preservatives.

Teak is a natural product and, because of this, fluctuations of temperature and humidity may cause surface cracking and in particular the end grains. This is normal and will not affect the durability or strength of the wood.

Left outdoors, untreated teak will adjust to the elements over the years and the colour of the wood will change to an attractive silver grey, aided only by an occasional washing with warm soapy water in order to discourage mosquitos.

GREASE SPOTS APPEARING ON THE FURNITURE

This is a natural feature of the wood and grease spots should gradually disappear after being exposed to sunlight. However, should you wish to remove these blemishes, we recommend using a degreasing agent and gentle scrubbing with a brush. Rinse off with clean water. Persistent grease spots can be removed by using white spirit.

MILDOW SPOTS OR BLACK BLEMISHES ON TEAK FURNITURE

This is usually the result of rainwater or sometimes sap dripping from the leaves of trees onto the wood leaving dark marks and spots. Ideally, we recommend the furniture is not placed under trees. However, these marks can be removed by lightly sanding with fine sandpaper.

REMOVING CANDLE WAX AND WINE STAINS

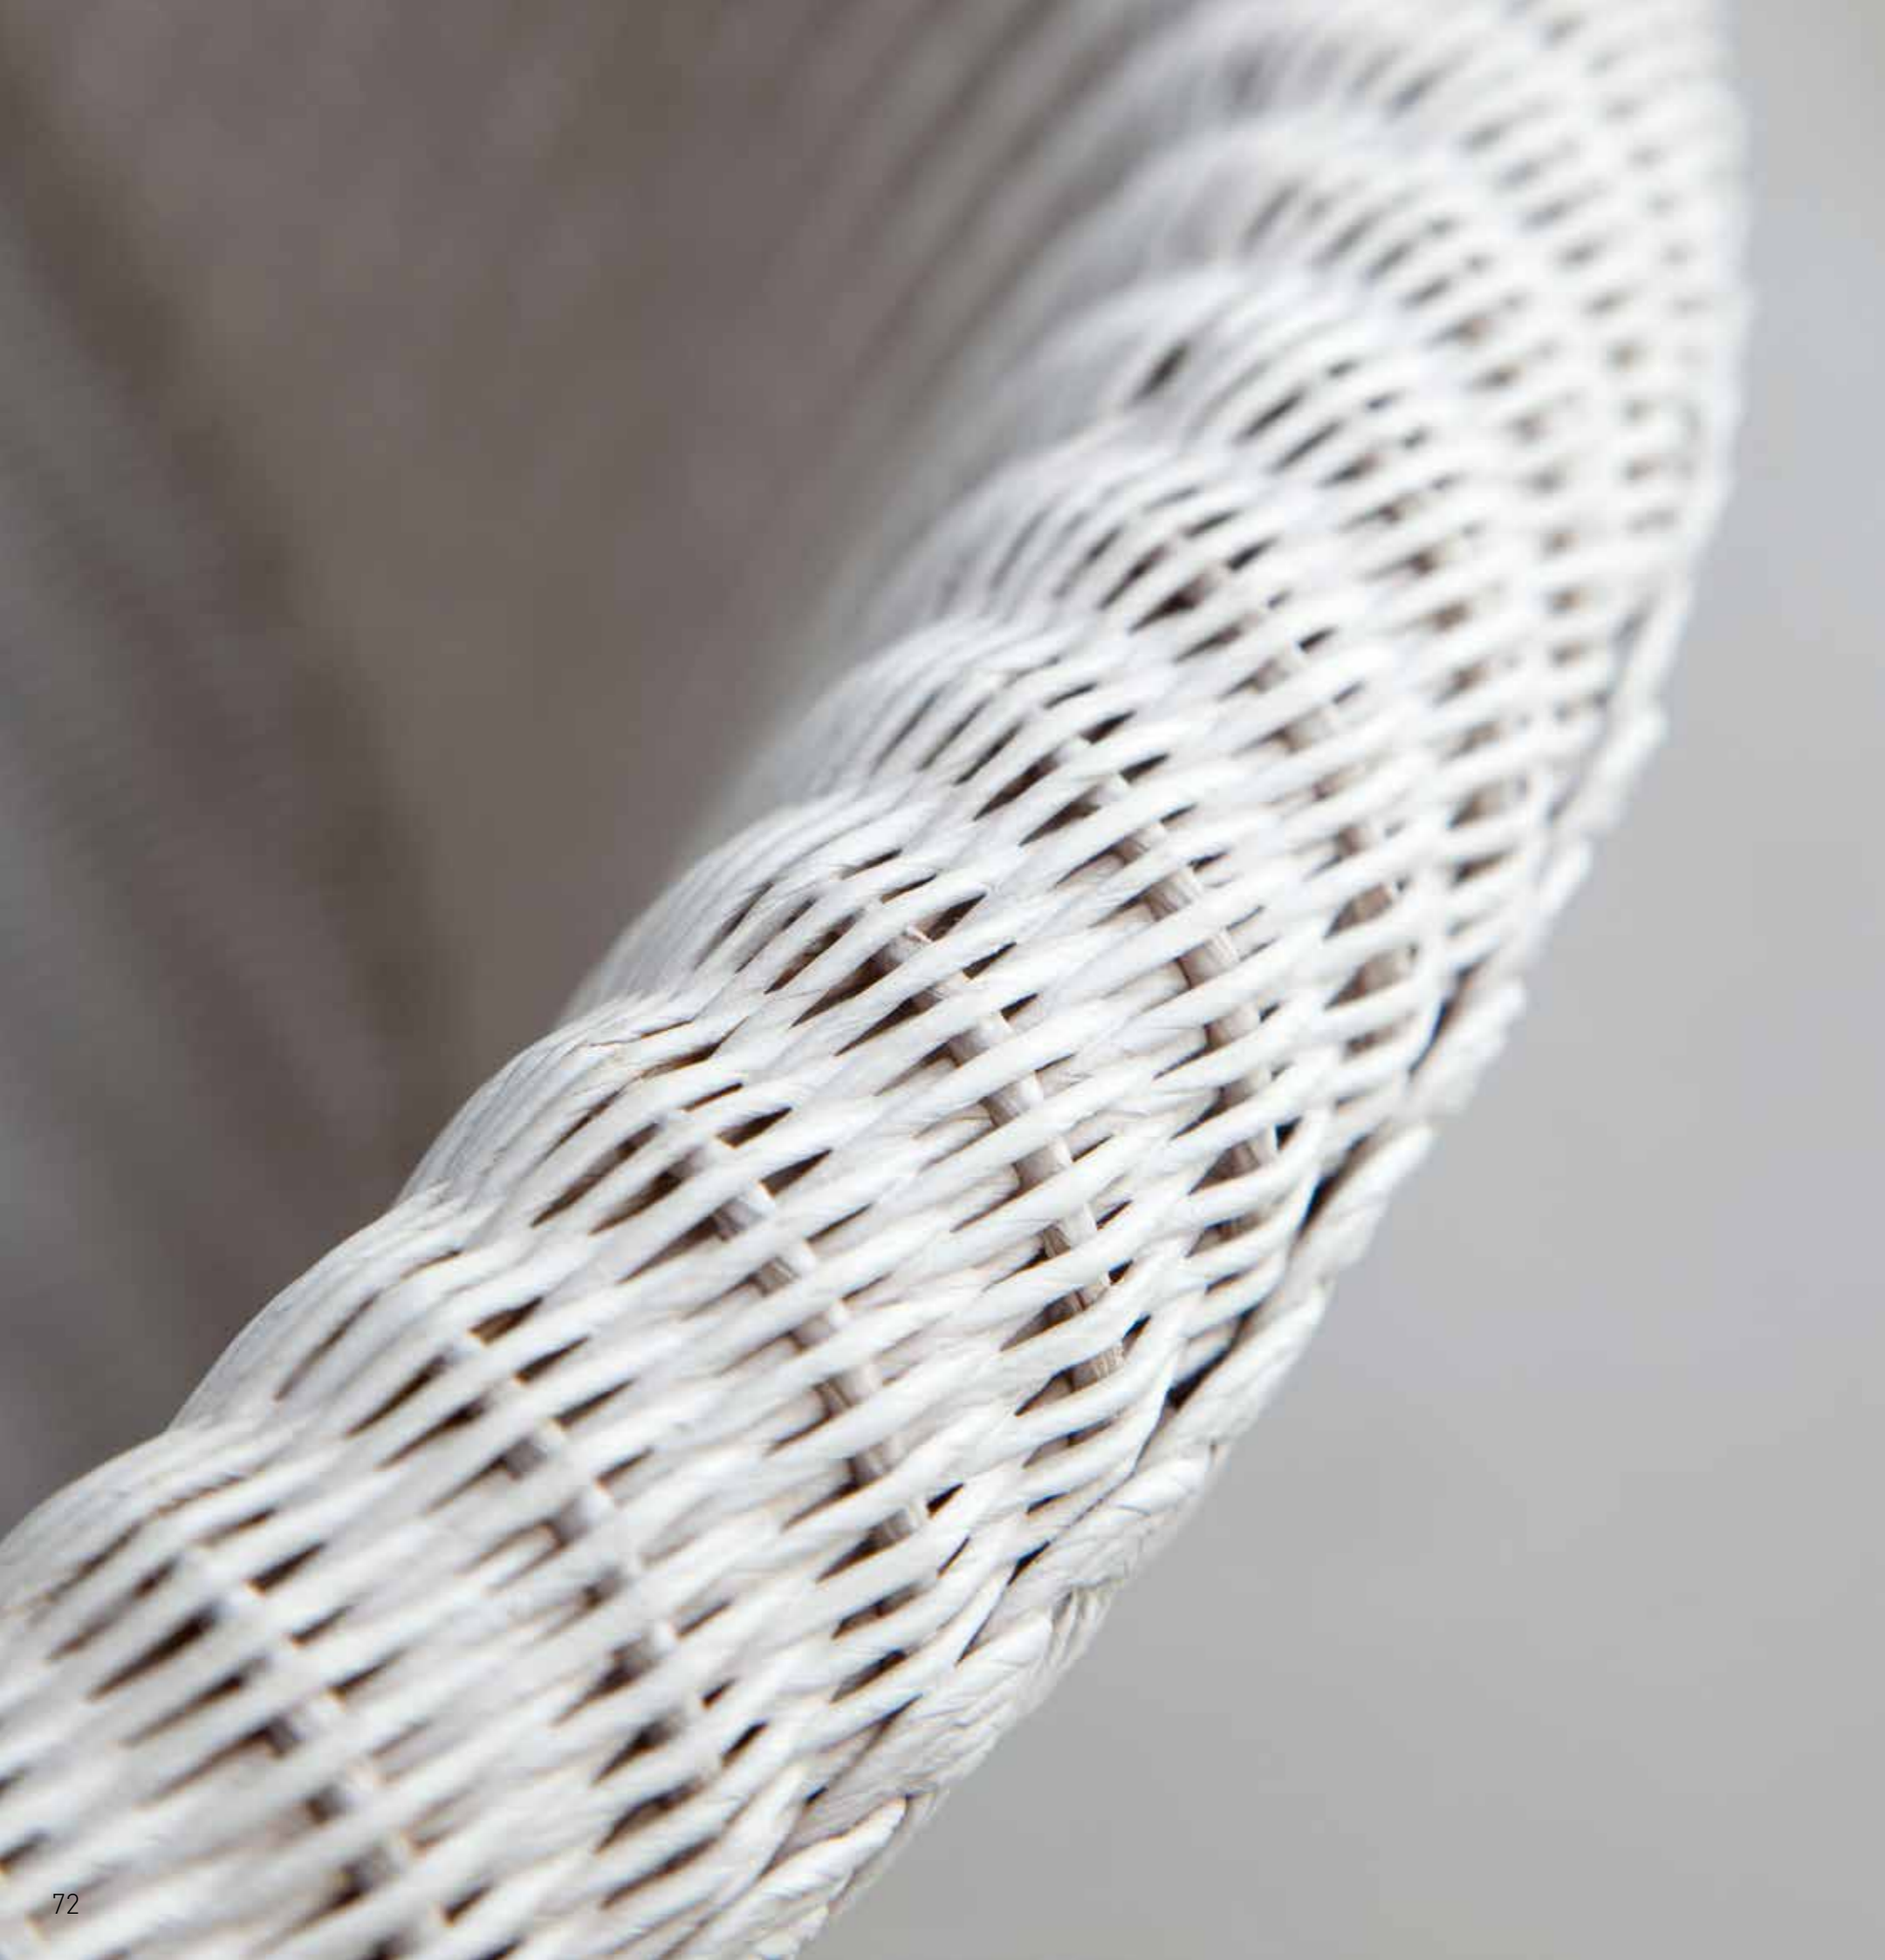

Candle wax can be removed by placing brown paper over the wax and pressing with a warm iron. This will melt the wax, drawing it out of the wood and onto the paper. For wine stains, we recommend using mentholated spirits to wipe the area clean.

FURNITURE DOES NOT HAVE THE SAME COLOUR AS IN THE SHOWROOM

This is due to the finished item being packaged and stored until delivery to the customer. Once the item is placed outside in daylight, the wood will return to its natural colour.

WILL MY TEAK FURNITURE LAST?

Decades of craftsmanship is built into every piece of Cotswold Teak. Every joint - using tenon and mortise joints - secured with teak dowels indicates the care and attention to detail that distinguishes our furniture. Most assembly components are made of brass and stainless steel to ensure against rust or deterioration. All these features guarantee you are purchasing the very best in outdoor leisure furniture - classic and contemporary designs with heirloom quality, impervious to the elements from generation to generation.

VINCENT SHEPPARD

INDOOR COLLECTION

Vincent Sheppard has been designing and manufacturing furniture with exceptional seating comfort since 1992. The company is the worldwide market leader in Lloyd Loom furniture, a technique where Kraft paper is twisted around a metal wire and woven into unique furniture pieces.

Today, Vincent Sheppard furniture is exported to more than 40 countries. The headquarters of Vincent Sheppard are in Belgium, while their main production plant is located in Indonesia, a country known for its rich tradition in weaving.

By constantly challenging itself and its design aesthetics, the brand is able to present young, contemporary furniture collections that answer to all modern needs. They combine a clear focus on quality and comfort with craftsmanship and an age-old technique, and translate these ingredients into qualitative, durable and appealing designs. With a wide variety of indoor as well as outdoor pieces of high quality, the brand is a favourite of many interior aficionados.
